Professional 20 Minerale PL

High performance APAO modified bitumen membrane for roofing works. This product is designed as top layer in multi layer waterproofing systems, for both new roofing works and refurbishment works. It is also used for pitch roofing works. CE Top layer in a multi layer waterproofing systems according with EN13707 for flat roofs. Layer for pitch roofs according with EN13859. Field of use Exposed not-accessible roofs, technical roofs exposed or under heavy protection. Pitch roofs. Certifications and Agreements Composition Top Surface: Mineral slate or Granules Back Surface: Film Reinforcement: Polyester reinforced with fiber glass Method of application Dimension and packaging Professional 20 Minerale Thickness (mm) Weight (kg/m2) 4,0 4,5 Rolls (m) 1X8 1X8							
according with EN13707 for flat roofs. Layer for pitch roofs according with EN13859. Field of use	Description	for roofing works. This in multi layer water roofing works and refu	s product is de proofing syste urbishment wo	esigned as top lay ems, for both ne	er ew
